## RUSH TO STURGEON LAKE

Prospectors and Mining Men  
are Hastening to the  
New Camp.

The early thaw is causing a rush in-  
to the Sturgeon Lake country by those  
who have to haul freight in from the  
track, says the Industrial Review. The  
anticipation that the ice will be solid  
until the middle of April is liable to be  
falsified.

Supplies are going in for the Stur-  
geon Lake Mining Co., of St. Cathar-  
ines, whose mine is the first producer  
on the lake, and which gave very sat-  
isfactory results while the mill was  
running. A shuffie has taken place in  
the company's personnel and work will  
be continued this spring.

The Anglo Canadian Gold Estates  
will continue exploratory work on  
their property, and will probably have  
hoists and pumps on the ground before  
the close of ice hauling.

The Anthony, J. S. Steel's mine, is  
another property that will have a lot  
of work done upon it this summer. The  
management have about decided not  
to put up a mill, but to find out first  
all that can be learned about the ore  
body. The shaft which is being sunk  
by contract is, according to latest re-  
ports, in even better ore than was  
found on the surface.

At the Shores' lower camp, the United  
States Gold Mining Co. are now in  
shape to make some impression. Two  
hoists are already set up at the two  
shafts, which are both about seventy  
feet deep, and lie a quarter of a mile  
apart on the same vein. In one shaft  
the vein is four feet wide at the bottom,  
and in the other 6 and 7 feet in width,  
and a certain amount of drifting has  
been done at the 70 foot level.

The ore is rich, not, perhaps, so plen-  
tifully sprinkled with visible gold as  
that found in some of the Sturgeon  
Lake prospects, but it is dark and well  
mineralized, pans freely, and in those  
places where visible gold is found, the  
minerals in a very fine state of dis-  
solution.

Dr. Gilman, an eminent Chicago  
physician, stated that in twenty-five  
years experience he had never com-  
e more promising ore. The values  
are about one ounce per ton.  
The ore will be used to develop  
the mine. The ore camp mill is  
being constructed, and there will  
be about 200 gold bricks turned out  
in the first season.

there is a lot of pay ore on the dump,  
and the miners will be able to keep the  
little mill busy.

### MACHINERY FOR GOLDEN HORN.

Five teams of horses have been en-  
gaged during the last few days haul-  
ing machinery out to the Golden Horn  
mine under the supervision of Mana-  
ger Rideout. The machinery com-  
prises a 50 horse-power tubular return  
boiler, one 12x18 Ingersoll compressor,  
and two No. 3 drilling machines with  
column bars and hose complete. Sev-  
eral loads of fire-bricks and other ma-  
terial necessary for the accommoda-  
tion of the new plant has also been  
hailed to the mine. The Golden Horn  
company are to be congratulated as  
much upon having such a live mana-  
ger as Mr. Rideout, as upon their ex-  
ceptionally promising gold mine.

### LIVELY LUMBER TRADE.

Winnipeg Free Press: Mr. T. D.  
Robinson, of Main street, who deals  
extensively in lumber, said yesterday  
that the coming season would be a  
good one for the lumber trade. The  
prices and the supply would likely be  
much the same as usual for the first of  
the season, but as building promised  
to be far more brisk than other years  
the demand for lumber would be great-  
er and consequently there was a risk  
that prices would increase toward the  
end of the season. There were many  
proposed buildings, Mr. Robinson ad-  
ded, on which the contractors were fig-  
uring, and until these contracts were  
definitely decided, it was impossible  
to say just how much lumber would  
be required in the city. For instance,  
if the big building which Lord Strath-  
cona is to build on the corner of Main  
and Broadway goes on it will use nearly  
one million feet of lumber alone.

### McEWEN THE HYPNOTIST.

The world renowned McEwen the  
famous Scottish hypnotist, who creat-  
ed such a sensation here on his last  
visit is billed to appear again at the  
Hillside Opera House for four nights  
commencing to-morrow, Wednesday.  
Mr. McEwen has travelled with him  
this season, Mr. E. N. Smith the com-  
petent virtuoso who will give several sets  
at intervals during the performances.  
The prices have been put down to  
rock bottom, so that all may avail  
themselves of the opportunity of see-  
ing McEwen in his marvellous tricks,  
and hearing the most virtuosos. Prices  
will be reserved seats 35c and 25c.

however, I was obliged to value them  
at current prices.

I have nothing to say as to the valua-  
tion and report of Mr. Blossoni of New  
York, except that no action has even  
been taken upon it, and it has never  
been considered seriously. The works  
were taken over by the corporation,  
and as a result of the first years  
operation, there was a material sur-  
plus after paying interest, sinking  
fund and operating expenses. The  
sinking fund as you are aware repre-  
sents depreciation.

I enclose you herewith a statement  
showing the receipts and expenditure,  
on the last page of which statement  
you will find that there was a balance  
for the year ending 30th September  
1901 of over \$1,000.

I would consider it a favor if you  
would send me a copy of your paper,  
containing reference to this communi-  
cation and oblige.

Very truly yours,

WILLIS CHAPMAN

M. Can. Soc. C. E.

### ST. PATRICK'S DAY PARADE.

The Catholic Irishmen of Rat Port-  
age assembled at the McVeigh-Walsh  
hall yesterday morning and marched  
in procession from there to Notre  
Dame church where high mass was  
celebrated in honor of Patrick, the pro-  
phet saint of Ireland. Rev. Father  
Cahill preached a most able historical  
sermon, treating on the life and times  
of the Irish apostle which was listened  
to with rapt attention by the congrega-  
tion.

Westerfield Mining Investment Com-  
pany's Metallurgical Works.

In the Sharpe block, Second street,  
we have opened an office for assaying  
and analysing. The works are under  
the management of Mr. Theo. Bush-  
enbach, M.E., and metallurgical chem-  
ist, who is specially prepared to make  
qualitative and quantitative investiga-  
tions for gold, silver, platinum, tin,  
zinc, copper, iron, nickel, cobalt, etc.,  
or any other elements required. Also  
tests of ore up to 1,000 lbs. will be ex-  
ecuted and reports given as to the ad-  
vantage of saving and extraction, and  
quantiative and qualitative treatment.  
Gold assays on lots of six or more will  
be made at the price of 50 cents.

### TROUBLES OF A PRO-BOER.

Colborne, Ont., March 15. Henry L.  
Meyrick, formerly pastor of St. Albans,  
Vt. church, but lately in England

## DEFEAT OF THE VICTORIES

Montreal Wins the Last  
Game By a Score of  
Two to One.

An excited crowd of hockey enthu-  
siasts assembled at the Russell House  
last night to hear the bulletin of the  
Stanley Cup game kindly furnished by  
the proprietor, read out during the  
progress of the match. The telegrams  
were being sent to Montreal, and the  
correspondent who was recording the  
game, was quite a satirist, and a firm  
believer in the Montreals. One of  
his despatches read, "Half time—been  
good clean hockey so far—only three  
men paralyzed—Montreal two goals—  
Vict none."

After half time the Victories on the  
ice together with the Montreals em-  
phatically for the emergency work of the  
hospital, and it they failed in the har-  
per, they certainly could not in the  
latter, as they managed to let one  
Montrealer in, and then a second, that he  
had to be carried out on a stretcher. Another  
got a slash over the eye, which opened  
a large gash in his forehead, and there  
were other signs of a hot battle. The  
disposition. The victory was allowed  
the game, and the Montreals were  
during the second half of the  
game, having two goals to their credit,  
they played a close defence, and only  
allowed the despatch to be sent to  
score one goal. This was the state of  
the game at the expiration of the  
two periods of play of thirty minutes.  
The victory then the Stanley Cup  
which is now theirs, because they  
proved themselves the better team.

There is no stopping and no  
quitting of toothless anger in Rat  
Portage over the defeat of the Vic-  
tories. They were pulled up with  
pale which is a poor condition to be  
in while playing a championship game.  
They were excited and vain glories,  
and more the number of their town  
on the fore-edges of the post of the  
hockey metaphor. They thought  
Winnipeg the best of the spirit and  
implied in that word that the world  
must go to the bottom of the residents  
of the city, but that they were  
high, from the fifth to the hundredth  
of Montreal.

We gave seven of our children a hot  
play from school that they might go  
and knock some sense into the Vic-  
tories, but they did not appropriate the King  
and they are completely and then  
back home, just when the children

## MILLING MANITOBA WHEAT.

In a recent issue of the Miner we pointed out the urgent necessity of prompt action on the part of our citizens, the C. P. R. Co. and the Kewatin Power Company in the matter of establishing flouring mills on Tunnel Island, and are pleased to notice since that the press of the Dominion regardless of party are taking the matter up in a vigorous manner. The following is a short editorial from last Saturday's Toronto World on the subject:

"As soon as anything of value is discovered in Canada our enterprising neighbors make a dash to get possession of it. They have all along been aware of the excellence of Manitoba wheat, but it is only of late that it is being produced in such quantities as to become a factor in their own trade and in the European markets. The millers of Minnesota are consequently very anxious to get the control of the Manitoba crop before it leaves this continent. It is proved that Canadian wheat ground in flour within the United States, is subject to a rebate duty which is exported from that country. An alternative is that the duty should be taken off altogether in the United States. The reason advanced is that the export of Canadian wheat which disturbs the market in Great Britain and thereby causes the United States farmers considerable loss. It is to be hoped that Canada will not allow the United States to reap the advantages of our unexcelled Manitoba wheat. If it is economical and profitable to ship the product of our Northwest as flour instead of wheat, then the mills for doing the work should be located in Canada and the product should be shipped from Canadian ports and not from New York and Boston. All schemes looking toward the control of our Northwest wheat by the millers of Minnesota should be resisted."

## PILOT AHOY!

The Liberal Ship is beating about at the mouth of the harbor, and the crew are anxiously gazing shoreward for the Pilot. The channel is a tortuous one, for it runs in and out among shifts

## ONTARIO A COUNTRY.

The Magnitude, the Variety and the Richness of This Province.

The opening of the Legislature reminds us of the magnitude, the variety and richness of the Province of Ontario, says The Toronto World. In Canada, Ontario is merely a province. If the same extent of territory were in Europe it would be considered a full-fledged country. Ontario alone ought to have a population as large as that of the entire Dominion, and we think we are safe in saying that it will have such a population within 25 years. Our timber and mineral resources are immense, and every year ought to witness an increase in the output from both these sources. We are pleased to notice that the Government proposes to take steps to increase our timber reserves, so as to establish a permanent source of revenue from our forests. Ontario needs to adopt a comprehensive forest policy, one that is commensurate with its great forest wealth and possibilities. Millions of acres of excellent timber lands are available for reforestation, and this work should be undertaken on a large scale, with a view to securing for the province a permanent revenue. Ontario is at last making substantial headway in the development of her mineral resources. The search for gold in the Rainy River district has proved more or less visionary, but the exploitation of our iron and nickel mines has revealed the fact that Ontario possesses inexhaustible supplies of these useful minerals. The completion of the new railway between Lake Superior and Winnipeg will open up a large territory that has hitherto been practically inaccessible. This district contains valuable minerals, timber and agricultural lands, and the coming summer ought to witness a large influx of farmers and miners. Our Legislature ought to grasp the idea that they have a great country, not a little province, to deal with. We are not giving sufficient attention to the great undeveloped region to the north. Our railway system should ere this have reached James' Bay and opened up for settlement the intervening country. There has been unanimity of opinion for a decade on the advisability of constructing a railway to James' Bay. We can hardly proceed too fast in the opening up of Greater Ontario.

## Indians Carry on Boasting.

An interview with Rev. J. R. Matheson, who, accompanied by the Bishop of Saskatchewan, arrived at Edmonton recently from Onion Lake, appears in The Edmonton Bulletin, which says the trip of over two hundred miles was made in four days by the trail north of the river. The route at Onion Lake is 12 miles by six miles square, and contains some 3000 residents. Indians, half-breeds and whites. The chief industry of the natives on the reserve is ranching. This enterprise was begun several years ago, when Mr. G. G. Mann, then agent at the lake, procured a herd of 60 cows from the Government. There were farmed out to the Indians, the original stock being followed by their produce, and the Indians retaining the nucleus of the herd. This arrangement has led to a dual nature

## THIRTY YEARS AGO.

A Mellow Reminiscence of New Year's Day in Canada Three Decades Since! — How It Was Spent.

It is a well-known fact that nothing shows more easily the tide of affairs than the changes in the everyday life of any place, and does anything, looking backward, show more change than the New Year's Day of thirty years ago as compared with the first of January in the second year of the new century? Then the towns had plenty of military, "real military," as the scout saying of the spoilt young women of those days was apt to fail slightly on the ear of the then little thought of and now worshipped militia. It was a New Year's Day when the dashing officer of Hussars, artillery or line could have a glorious time indeed. Ten days before-hand the telegrams of the ladies, saying they were to be "at home" from early to late, were matters of greatest consideration, and by 12 o'clock the drawing-rooms of five houses out of six were ready for callers. The hostess, and it might be one of many daughters, with often some bright additions in the shape of girl friends, was in her place to see the stream of callers who came to give the truly old wish of "Happy New Year."

In some of the larger establishments the dining-room table was set with a medley of good things; hot or cold soup, an enormous jellied turkey and a large loaf cake being amongst the articles of cuisine most in favor; hot coffee, punch, and, above all, mulled claret and curacao being greatly in demand. In more modest houses a small table was generally in the corner of the drawing-room, above a glittered old-fashioned cut-glass chandelier of the shape and pattern so well known in those days, brought out by Beckel, the chemist, for his famous "glass center" in the pretty old silver candeliers, and tables of ill-gotten silver, the inevitable lead cake, so beloved of children, and liqueurs, often cherry brandy of the rarest home-made quality, and what a point of honor it was that each visitor should be pressed to partake, and, perhaps, sometimes too often. Afternoon tea was not the ordinary thing of life in a day's hurry. hot coffee was there later on.

Surely the snow was frost more glittering, being better in those days we always saw it New with the shimmering sleigh bells. The corns, too, fully little some hours bells. Addition to to greet a galore, many a home member must have said, "I don't mind that, but I don't like the hard, outer coat, and was torn in the stop. One of the pitiable home was, as the sea of the light dinner. No Year's Day, men's differed in any, suffering a good were

If the woman at work should make answer to the other woman, she might, perhaps, say: "You never had to scrub and clean when your back ached so that it seemed that every movement would break it in two." It's bad enough for a woman to suffer. But when she must suffer and slave at the same time she reaches the limit of her endurance.

Weak women who have been made strong by the use of Dr. Pierce's Favorite Prescription, recommend it to others as a godsend. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"I have been ailing some time now, being troubled with female weakness," writes Mrs. Wm. H. Johnson, of Annapolis, Chester Co., Pa. "Every month I would have to lie on my back. I tried many different medicines and nothing gave me relief until I began Dr. Pierce's medicine, using two bottles of Favorite Prescription and two of Golden Medical Discovery. These medicines cured me. When I began your treatment I was not able to do very much, but now I can do my work for two hours of the day, and feel better than I have for a year."

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache. They do not create the pain habit.

AND THOSE TROUBLED WITH Palpitation, Throbbing or Irregular Beating of the Heart, Dizziness, Shortness of Breath, Distress after Exertion, Smothering Feeling, Boasms of Pain through the Head and Heart, Morbid Condition of the Mind, Partial Paralysis, Sleeplessness, Nervousness, Indigestion, General Debility, After Effects of Grippe, Loss of Appetite, etc.

Remember Milburn's Heart and Nerve Pills cure the worst cases after other remedies fail.

It has been used for 60 years. Write to Dr. W. A. D. Toronto, Ont.

Karl's Clever Hand Tag corrects the Stomach

tonight at 8 o'clock.

The Indian industrial school pupils assisted by the pupils of St. Joseph's academy will give a grand entertainment at the opera house Tuesday, April 15.

The McEwen entertainments open to-morrow night and will be continued until Saturday evening.

Mr. E. Bird has left for British Columbia where he will enter a law firm. The business here which has been moved into a partnership with Mr. McCallivary will be carried on as usual. Mr. Bird retaining connection with the Portage.

Miss Jessie Macleod was given a benefit concert in the Winnipeg theatre last night. She is not booked for a return date here.

There is more truth than poetry in the following from the Montreal Herald: "Seats for tonight's hockey game in Winnipeg are selling at \$2.00 each. And the men who pay the price probably go down with heart disease every time they put the in the church collection."

Mr. E. L. Langstaff, of Emo, is mentioned as a probable candidate in the Conservative interest to run against Mr. Jones Connors. He would be a strong man to run in the Conserve stronghold.

Mr. Alex. McEwen, of Winnipeg, has been appointed a police magistrate for the city and province.

The blizzard of the last few days is said to be one of the worst experienced in Winnipeg since 1881.

Mr. McLeod's class of girls who are studying statue posing as a feature for the entertainment in the opera house on April 15 are making rapid strides toward perfection.

An aged and infirm Indian chief from the Rat Portage district, arrived in the city on Saturday night. He came to obtain treatment for his eyes at the St. Boniface hospital. Dr. Hanson accompanied him to the city.

The Ladies' Aid of the Norman Presbyterian church will hold a social and entertainment to-night.

The victorious Montrealeers are expected to pass through here tonight on N. & W. and the boys have decided to be at the station to give them a cheer.

Both local trains, east and west, ran off the tracks yesterday, derailed by the deep snow. No one was hurt.

Miss Nellie Hanson has returned from her trip to London, Ont., where she spent the winter visiting friends.

The finest feed-pump that ever came to this country will be installed in the Catholic St. Steamer.

The Canadian Pacific Railway Company announces excursion rates of fare and one-third for the round trip in

## Repairing Neatly Done

Never thought of such a sign for a medicine did you? Well, it's a good sign for Scott's Emulsion. The body has to be repaired like other things and Scott's Emulsion is the medicine that does it.

These poor bodies wear out from worry, from over-work, from disease. They get thin and weak. Some of the new ones are not well made—and all of the old ones are rickety from long usage.

Scott's Emulsion does all kinds. It does the work both inside and out. It makes soft bones hard, and blood red, weak lungs strong, hollow places full. Only the best materials are used—the patching and the putty don't show through the new glow of health.

No one has to wait his turn. You can do it yourself—you and the bottle.

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle.

Send for free sample.

taxes by the Government levied on buildings owned by private citizens. The city will ask reimbursement.

Owing to the death of Rev. Father Quinlivan, parish priest of St. Patrick's, Montreal, the St. Patrick's day parade there was cancelled.

Nothing has yet been heard of the missing steamer Hunonian. The Government steamer Aberdeen has returned to Halifax after an unsuccessful search. She has a crew of 90 and 90 passengers.

**BORN.**

McGURK.—At Rat Portage, on March 5, 1912, to Mr. and Mrs. E. McGurk.

**The Front End.**

A young couple had been married by a Quaker, and after the ceremony he remarked to the husband: "Friend, thou art at the end of thy troubles."

A few weeks after the man came to the good minister boiling over with rage, having found his wife to be a regular vixen, and said: "I thought you told me I was at the end of my troubles!"

"So I did, friend, but I did not say which end," replied the Quaker.

**Medicine Bottles as Gods.**

A lady missionary in Burma some time ago gave the following account of how she was the innocent cause of the worship of medicine bottles having been instituted. In one of her tours she came upon a village where cholera was raging. Having with her a quantity of a famous pain killer, she went from house to house administering the remedy to those attacked and left a number of bottles to be used after she had gone.

Returning to the village some months subsequently she was met by the head man of the community, who cheered and delighted her by this intelligence: "Teacher, we have come over to your side. The medicine did us so much good that we have accepted your god."

Overjoyed at this news, she was conducted to the house of her informant, who, opening a room, showed her the pain killer bottles solemnly arranged in a row upon the shelf, and before them the whole company immediately prostrated themselves in worship.

**Strong With Experience**

A story of a train of one car, bearing a patient, from Australia, and to Joseph Chamberlain and other British Government, arrived over the Chicago, Burlington & Quincy Railway at 9:10 a. m. Sept. 8 at Chicago. In order to catch the Southampton steamer which left New York the next day an effort was made to break up records to catch the Lake Shore steamer which left Chicago at 8:30 a. m. The work was transferred to another train and pushed by an engine with a record of 100 miles an hour and in charge of officials of the Lake Shore & Michigan Southern Railway left at 10 o'clock in hot pursuit of the flyer. It was caught.

### Boiled Down into Readable Paragraphs for Busy People.

Murdock McGuire was drowned at Goderich, Ont.

P. J. O'Connor, of South Bend, Ind., succeeded by jumping over Niagara Falls.

The Town Council of Owen Sound propose to annex the town plot of Brooks, which would bring the population of Owen Sound up to 11,500.

Mathew Jones, a G. T. R. engineer, was killed in St. Charles yards at Montreal.

Wm. Peaker, Jr., of Brampton, Ont., died from injuries received in an explosion.

The Colclough block and other buildings in Selkirk were destroyed by fire.

The wreck of the steamer Tiber has been discovered but nothing has been heard of the crew.

Eugene Gauthier, a Montreal man, has confessed to the murder of his sweetheart in New York and has given himself up.

E. C. Baker, of Oak Lake, died in South Africa of enteric and William Pell, of Winnipeg and J. D. May, of Stonewall, are dangerously ill.

## Every Mother A Doctor

It is an anxious time for mothers when the little ones get their feet wet, and come home hoarse and coughing, or awaken in the night with fits of deadly cough. Then it is mothers turn to get busy. They find who, through the use of Dr. Chase's Syrup of Linseed and Turpentine, have saved the lives of their children, and once, too, from the same ailment.

It is truly surprising how often the little ones get their feet wet, and come home hoarse and coughing, or awaken in the night with fits of deadly cough. Then it is mothers turn to get busy. They find who, through the use of Dr. Chase's Syrup of Linseed and Turpentine, have saved the lives of their children, and once, too, from the same ailment.

People who know of the strength and effectiveness of Dr. Chase's Syrup of Linseed and Turpentine, cannot look at a child lying in bed, with a fever, and a dry, hacking cough, without at once offering to give it a dose.

## Dr. Chase's Syrup of Linseed and Turpentine.

"A little rain lays much dust."
